ABOUT

Full-stack software developer with experience building and maintaining production systems using Laravel, Vue.js, React, and Node.js. Demonstrated ability to deliver reliable features, resolve issues, and collaborate with both technical and non-technical teams. Motivated to continue growing my technical skills, staying current with evolving technologies, and contributing to high-quality, maintainable software.

EXPERIENCE

Full Stack Software Developer   Apr. 2025 - Feb. 2026
Puretec Industrial Water

- Contributed to the development and ongoing maintenance of a critical internal operations platform using Laravel, Vue.js, and MySQL supporting logistics, scheduling, invoicing, and customer management
- Collaborated with senior developers and end users to gather feedback, clarify requirements, and implement features aligned with operational workflows and business rules
- Diagnosed and resolved frontend and backend issues, improving system reliability and day-to-day operational efficiency
- Wrote and maintained automated tests using Cypress and backend testing tools to ensure feature stability and reduce regressions

Full Stack Software Developer (Contract)   Oct. 2024 - Apr. 2025
LVING, Inc.

- Spearheaded key web platform features, including custom service flows, billing logic, and intuitive user interfaces, using React, Node.js, and Sharetribe's REST API
- Developed a mobile app using Flutterflow integrated with Firebase
- Utilized Google Cloud Platform APIs and deployed application with Docker and Cloud Run

Web Developer   Dec. 2021 - Apr. 2025
Freelance

- Freelance web development for various businesses and non-profits
- Developed and maintained web applications with WordPress/Wix/Squarespace and CSS/JS
- Integrated third-party APIs, created digital assets, and optimized sites for SEO
